WARNING

**DO NOT
OPERATE
WITH GUARD
REMOVED.**

90998

**GREASE
POINT**

811030

A collection of safety pictograms. On the left, four blue circular icons: headphones, glasses, a boot, and gloves. Below them is a white rectangular box with a black border containing a speaker icon, the text 'LWA', and '101 dB'. On the right, a 3x2 grid of yellow square icons with black borders: a warning triangle with an exclamation mark, an open book, a hand plugging an ear, a hand plugging an ear with a cable, a person slipping, and a person with a double-headed arrow indicating distance.

A yellow triangular warning sign with a black border. Inside the triangle, there is a black silhouette of a hand holding a tool, possibly a wrench, near a rotating blade. The blade is depicted with several vertical lines indicating its rotation. To the right of the triangle, there is a black rectangular box with the word "WARNING" in white, bold, capital letters. Below this box, the text "Rotating blade hazard." is written in black, followed by "Do not operate with guard removed." and "Always remove the spark plug before servicing." in a smaller font.
