

The LONCIN 75cm Tiller Rotovator offers excellent value, rugged performance, and versatility, making it ideal for large gardens, contractors, and hire shops. Powered by a high-specification Loncin engine, it comes with transport wheels, reverse transmission, and heavy-duty rotors as standard, making tough jobs easier. Its adaptability allows smooth operation on flat land, inclines, and hillsides, making it perfect for small, mountainous areas. This rotovator is well-suited for farming applications like vegetable greenhouses, orchards, and gardens, ensuring efficient mechanized operation.

Engine Model	G200F
Rated Power	4.1 kW
Rated Speed	3600 r/min
Displacement	196CC
Gas Oil Capacity	3.6L
Oil Capacity	0.6L
Fuel Consumption	30 kg /hm²
Cutting Width	85 cm
Cutting Depth	15 cm
Working Capacity	0.1–0.3 m/s
Efficiency per Hour	400m²/h
Transmission	Gear/Chain
Connecting	Belt
Rated Blade Speed	120 r/min
Blade Type	Dryland blade
