

LS14 Lawn Scarifier

Product Code: LS14

The CAMON LS14 Lawn Scarifier is a lightweight yet durable machine, ideal for small to medium lawns and suitable for both domestic and professional use. Powered by the reliable Honda GP160 engine, it effectively removes moss and thatch to improve lawn health. Its narrow design ensures easy operation while maintaining high performance. Featuring an interchangeable rotor cartridge, it's perfect for landscapers or larger lawns. For best results, scarifying should be done in autumn and spring when conditions allow for quick lawn recovery.
